PROFILE

I am a recently graduated engineer passionate about software development and strongly committed to excellence in everything I do. I consider myself a perfectionist and creative person, qualities I apply constantly in every project I participate in. I firmly believe that if I'm going to do something, I must give my best, regardless of the challenge.

I am passionate about designing and developing high-quality software, not only because it involves solving problems, but also because it requires ensuring that the solutions meet previously established requirements and deliver real value.

I have experience in full-stack development using the MERN technology stack, as well as frontend technologies such as HTML, CSS, and JavaScript. I am proficient in several programming languages, including Java, C, C#, Python, Dart, MATLAB, and TypeScript. Additionally, I have expertise in mobile application development using both Flutter and React Native, which allows me to create efficient and high-level cross-platform solutions.

SKILLS

- Programming in Python, Java, JS, TS, Dart, MATLAB, and C#
- Web development using HTML/CSS/JS
- SQL knowledge
- Excel proficiency
- Creative problem-solving
- Good communication and teamwork
- Full-stack development using MERN
- Mobile app development in Flutter
- Mobile app development in React Native

LANGUAGES

- Native Spanish
- English B2

CAREER OBJECTIVE

To grow professionally in a technology-driven company where I can apply my knowledge in full-stack and mobile development, contribute with innovative and high-quality solutions, and continue refining my technical skills in a collaborative and demanding work environment.

TECHNICAL HIGH SCHOOL DIPLOMA

Computer Maintenance and Assembly

Institución Educativa Técnico Industrial Antonio Prieto

2014-2019

UNIVERSITY LIFE / LEADERSHIP & VOLUNTEERING

During my university years, I have stood out for participating in various activities and programs organized by the university or student groups.

INTEGRAL CALCULUS TUTOR

Academic Success Support Center (CREE) – Universidad del Norte

Jan 2023 – Jun 2023 / Jan 2024 – Jun 2024

- Reviewed class topics with students
- Helped resolve academic doubts
- Organized group study sessions

MEMBER OF ACM UNINORTE CHAPTER

Feb 2020 – Dec 2023

- Actively participated in events organized by the group
- Contributed to idea exchange and discussion spaces about tech topics

VOLUNTEER TEACHER

Uninorte Volunteers

Aug 2023 – Present

- Taught reading workshops at least once a week to children between 5–11 years old in the "Mequejo" and "Yo Leo" programs
- Participated in early literacy activities with children aged 7–12 in the Rebolo neighborhood of Barranquilla
